ARCADE GAME!

Here's How To Play:

Trapped in a bizarre, alien high-tech structure and surrounded by robots, your Commando moves from cell to cell as you face a band of deadly mechanical monsters. Odd marching skeletons clunk toward you. Robotic tanks trundle into position. Face your enemy and fire, or be doomed by their fatal touch! Eliminate all automatons and proceed to the next assembly. Stay alert! Your enemies now fire deadly blasts. Some cell walls ricochet the blasts so watch where you fire! Worst of all is Evil Otto, the bouncing menace who passes through walls and destroys any creature on contact. It's a bizarre battle for survival as Evil Otto bounces toward you! Will you make it?
